## FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

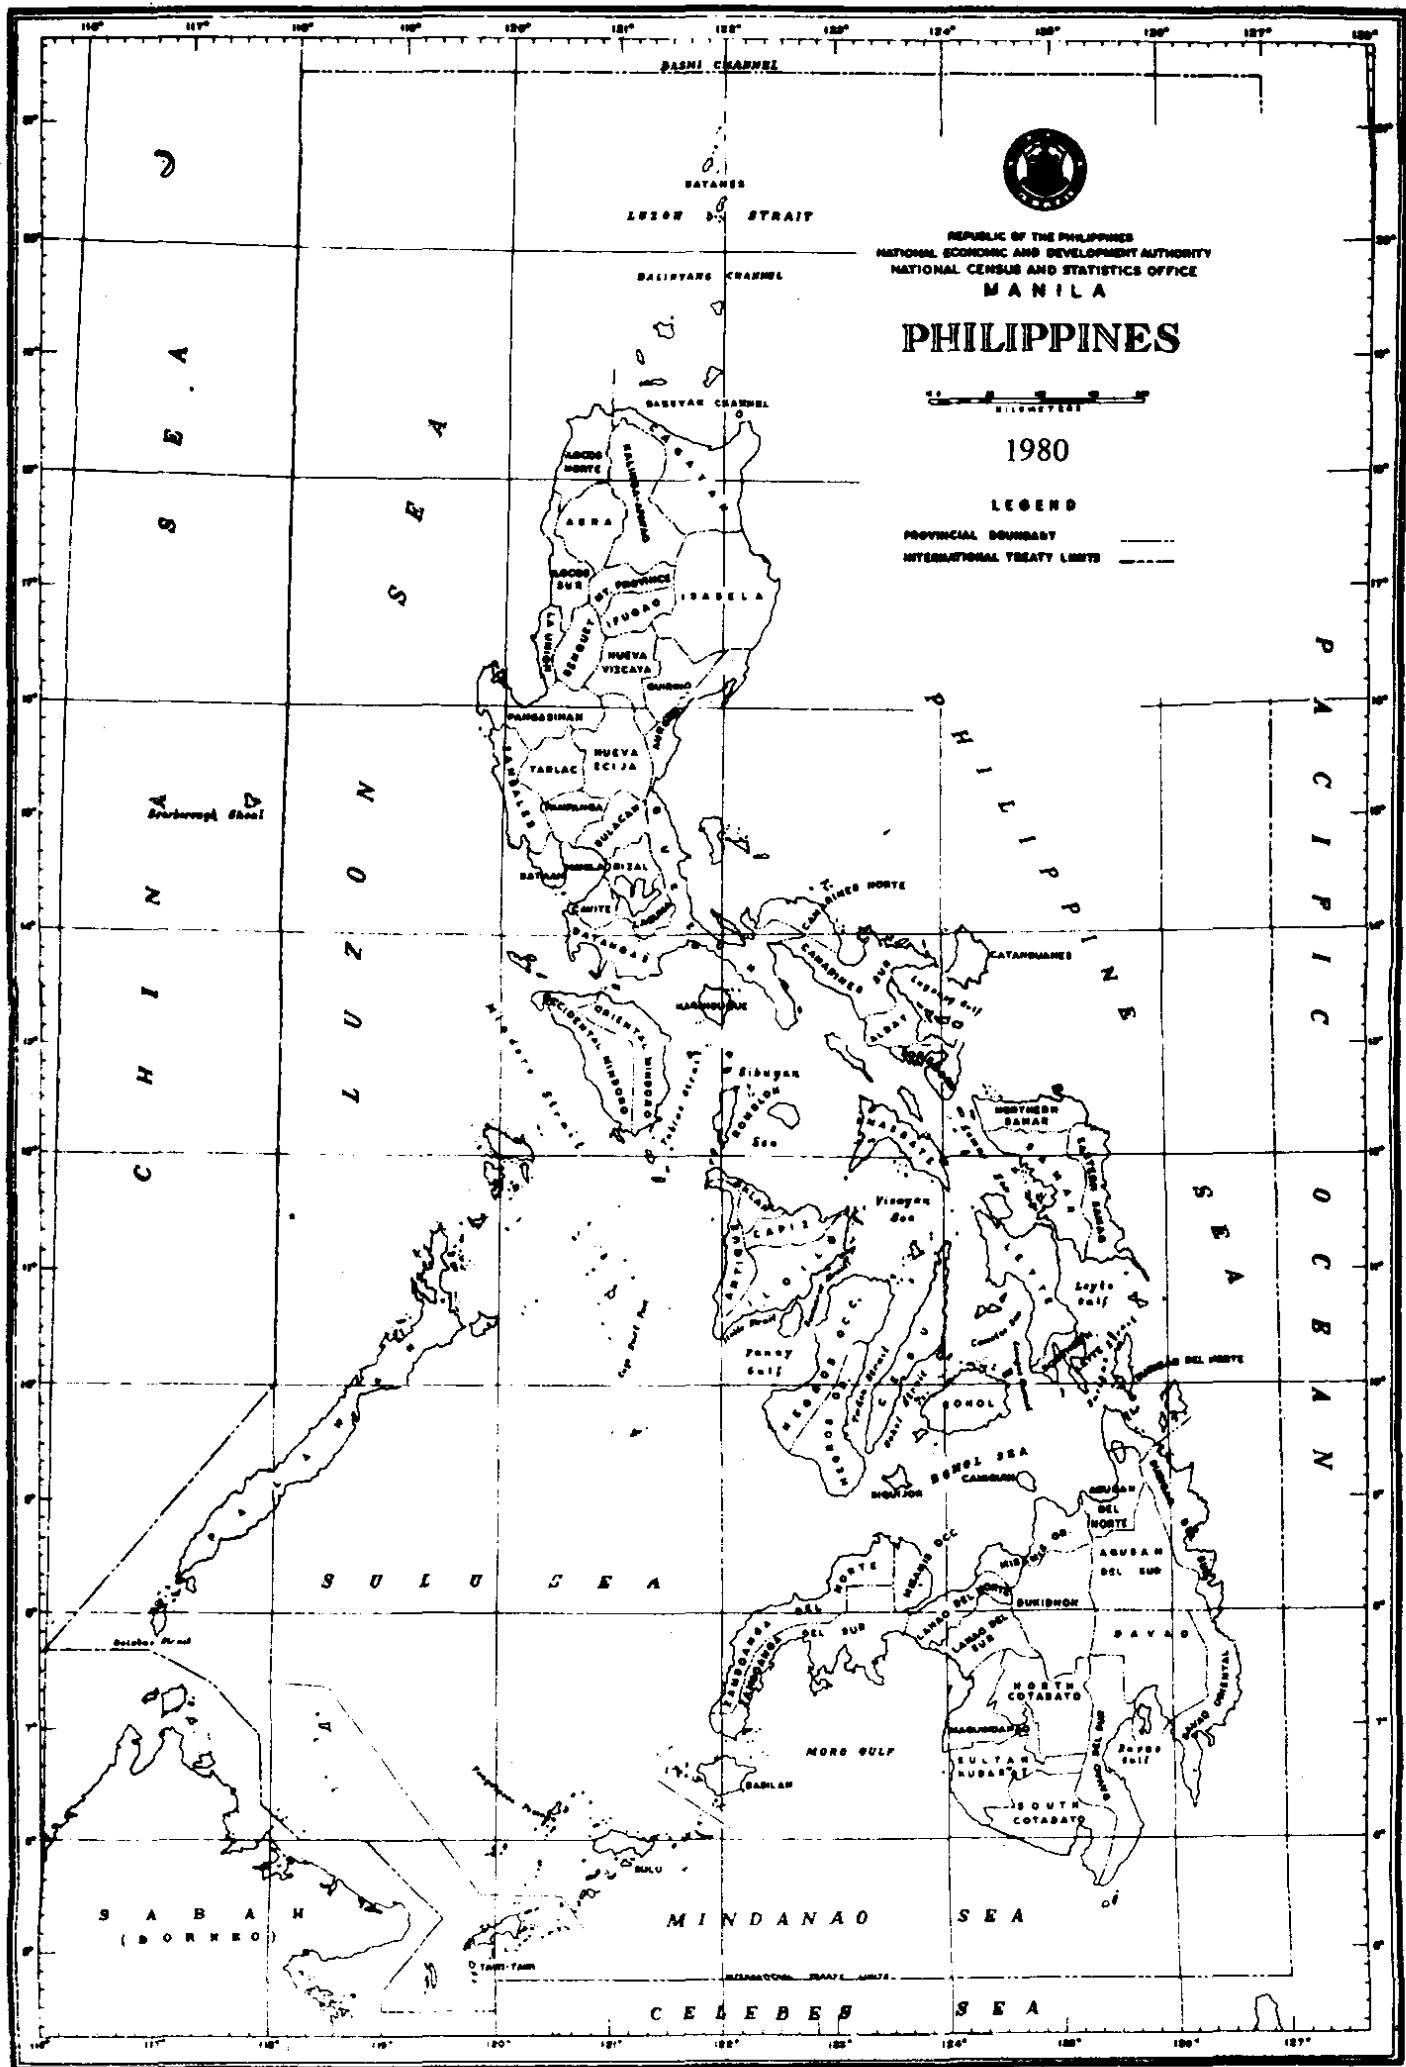

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

  
TITO A. MIJARES

# **Explanatory Text**

## **GENERAL**

### **INTRODUCTION**

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

### **AUTHORITY FOR THE 1980 CENSUS**

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

### **INTER-AGENCY PARTICIPATION**

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

## EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

### CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

## **EXPLANATORY TEXT**

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

### **CENSUS ORGANIZATION**

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

### **METHOD OF ENUMERATION AND USE OF SAMPLING**

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

### **PLACE WHERE ENUMERATED**

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

## EXPLANATORY TEXT

### POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

### CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

### DEFINITION OF TERMS AND CONCEPTS

#### I – POPULATION

##### BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

## **EXPLANATORY TEXT**

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

### **ENUMERATION AREA**

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

### **URBAN AND RURAL AREAS**

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
  - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
  - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
  - c. At least three of the following:
    - 1) A town hall, church or chapel with religious services at least once a month;
    - 2) A public plaza, park or cemetery;
    - 3) A market place or building where trading activities are carried on at least once a week;
    - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

### **PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD**

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
  - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

## EXPLANATORY TEXT

- or within one year, if abroad;
  - b. students who usually go home to their respective households at least once a week;
  - c. persons working elsewhere who usually go home to their respective households at least once a week;
  - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
  - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
  - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
  - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
  4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
  5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
  6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
  7. Persons found in the household who have no usual place of residence elsewhere;
  8. Persons found in the household who are not certain of being enumerated elsewhere;
  9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
  10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
  11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
  12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

## EXPLANATORY TEXT

### PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellory or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

### USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

### HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

## **EXPLANATORY TEXT**

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

### **PERSONS NOT LIVING IN HOUSEHOLD**

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

### **RESPONDENT**

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

### **LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD**

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

### **HEAD OF HOUSEHOLD**

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

### **RELATIONSHIP TO HEAD OF HOUSEHOLD**

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse — a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter — the head's own child, stepchild, or adopted child.

## EXPLANATORY TEXT

3. Son-in-law/daughter-in-law — refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter — child of the son or daughter of the head.
5. Other relative — a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others — any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under "Others".

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

## AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

## MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single — If never been married.
- b. Married — Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as "married" includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed — A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated — If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced — If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown — If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

## CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

## LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

## **EXPLANATORY TEXT**

### **HIGHEST GRADE COMPLETED**

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

### **USUAL OCCUPATION**

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

### **INDUSTRY**

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

### **EVER-MARRIED WOMAN**

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

## **II – HOUSING**

### **BUILDING**

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesoria, condominium) that was vacant;

## EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. **Single house** — a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. **Duplex** — a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. **Apartment/accesoria/condominium/row house**

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

4. **Improvised (barong-barong)** — a makeshift or roughly constructed house usually built with salvaged materials.
5. **Commercial/industrial/agricultural** — buildings not intended for human habitation but used as dwelling units at the time of the census.

**Commercial** — a building used for transacting business or rendering professional services, such as a storage or an office building.

**Industrial** — a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.

**Agricultural** — any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

6. **Other housing unit (natural shelter, boat, etc.)**

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

7. **Hotel, lodging house, dormitory, etc.** — This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. **Institutional (hospital/convent/school dormitory/penal institution, etc.)** — a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. **Other collective living quarters** — any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

## **EXPLANATORY TEXT**

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

### **DWELLING UNIT**

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

### **CONSTRUCTION MATERIALS OF ROOF**

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

### **CONSTRUCTION MATERIALS OF OUTER WALLS**

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

### **YEAR BUILDING WAS BUILT**

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

### **NUMBER OF ROOMS IN THE DWELLING UNIT**

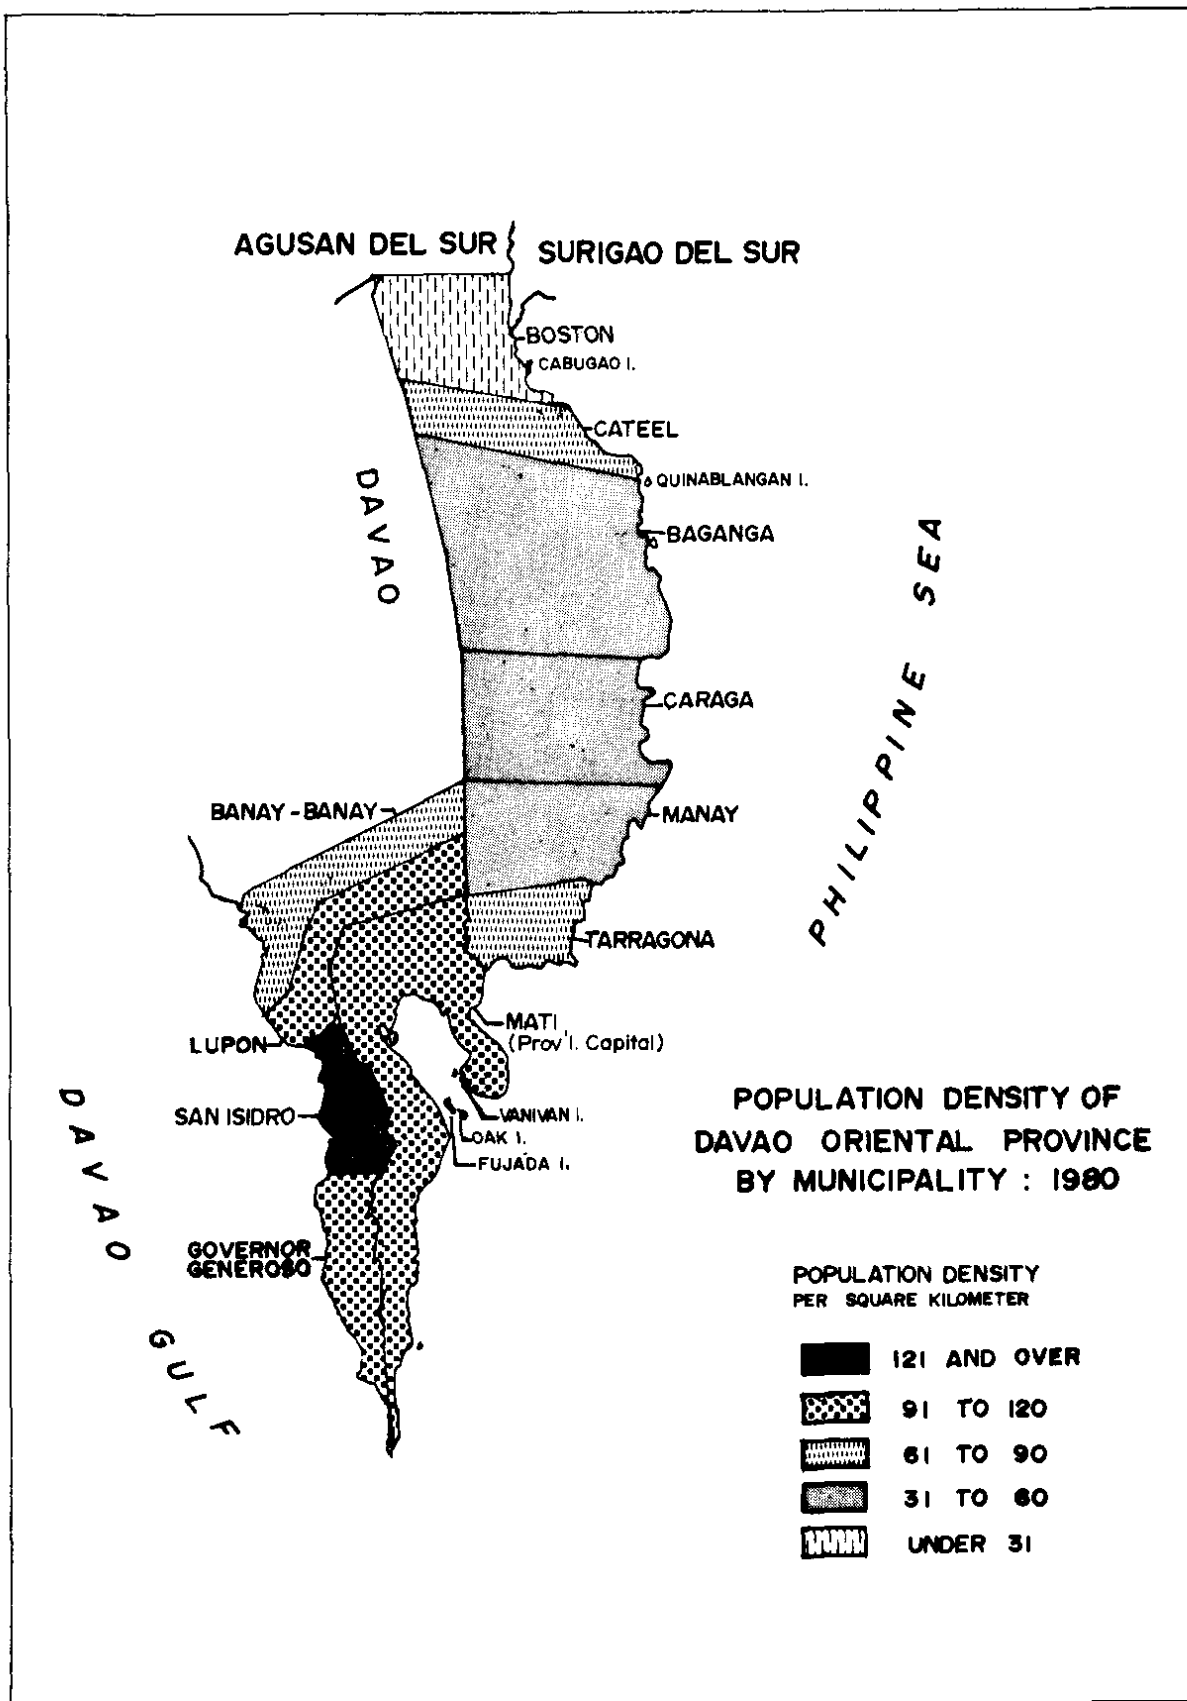

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

## **EXPLANATORY TEXT**

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

### **FLOOR AREA OF DWELLING UNIT**

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Areas of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway were excluded in determining the floor area.

## Davao Oriental: A Brief Analysis

Davao Oriental was created on May 8, 1967 under Republic Act No. 4867 which divided the vast province of Davao into three. Its sister provinces are Davao del Norte (now renamed Davao) and Davao del Sur.

The province lies on the southeastern section of Mindanao, bounded by the Philippine Sea on the east, Surigao del Sur and Agusan del Sur on the north, Davao on the west, and the Davao Gulf and the Mindanao Sea on the south. Extensive swamps, lowlands and mountain ranges with uneven distribution of plateaus characterize the topography of the province.

Prior to the approval of Republic Act No. 4867, the combined land area of the three provinces was the second largest in the Philippines. Davao Oriental occupies a land area of 5,164.5 square kilometers, representing 1.72 percent of the total land area of the country. It also constitutes 16.30 percent of the land area of Region XI to which the province belongs.

Eleven municipalities compose the province with Mati as the capital.

### POPULATION

As registered in the 1980 census, the population of Davao Oriental stood at 339,931 (175,033 males and 164,898 females). If the population were evenly distributed over its land area, each square kilometer would be occupied by 65.8 inhabitants or an increase of 7.8 persons per square kilometer in its population density of 58.0 in 1975. The population figure placed the annual geometric growth rate at 2.57 percent since May 1, 1975, showing a downward trend of the growth rate recorded at 3.84 percent between 1970 and 1975.

Improvement in the proportion of urban population in the province was observed to be slow during the past five years. More than three-fourths (77.47%) of the population still reside in rural areas; only 22.53 percent are in urban areas. The 1980 ratio of urban population to total population increased by only 0.86 percentage point from the 1975 figure. In contrast, the 1975 urban population was 2.59 percentage points higher than the 1970 figure. Total male residents increased from 155,044 to 175,033, or an increase of 12.89 percent between the census years 1975 and 1980. Simultaneously, total female population increased by 14.21 percent (Table 2).

The comparative figures in Table A show the urban-rural distribution of the population for 1970, 1975 and 1980:

## A BRIEF ANALYSIS

**TABLE A – URBAN–RURAL POPULATION BY SEX,  
DAVAO ORIENTAL: 1970, 1975 AND 1980**

Area Classification and Sex	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>339,931</u>	<u>100.00</u>	<u>299,426</u>	<u>100.00</u>	<u>247,995</u>	<u>100.00</u>
Male	175,033	51.49	155,044	51.78	126,878	51.16
Female	164,898	48.51	144,382	48.22	121,117	48.84
Urban	<u>76,582</u>	<u>22.53</u>	<u>64,896</u>	<u>21.67</u>	<u>47,319</u>	<u>19.08</u>
Male	38,481	11.32	33,009	11.02	23,772	9.58
Female	38,101	11.21	31,887	10.65	23,547	9.50
Rural	<u>263,349</u>	<u>77.47</u>	<u>234,530</u>	<u>78.33</u>	<u>200,676</u>	<u>80.92</u>
Male	136,552	40.17	122,035	40.76	103,106	41.58
Female	126,797	37.30	112,495	37.57	97,570	39.34

## A BRIEF ANALYSIS

The sex ratio (number of males per 100 females) of the province showed a consistent dominance of males in the three censal years – a sex ratio of 104.76 in 1970; 107.38 in 1975; and 106.15 in 1980. Dominance in sex ratio lay both in the urban and rural areas where the males always outnumbered their female counterparts.

Table 2 shows the distribution of the population by five-year age group. It will be noticed that a pyramid-like structure characterize the population with the males and females below five years old forming a broad base and the 80 years old and over forming the apex.

### AGE COMPOSITION

The proportion of the population belonging to the younger age group (0-14 years) has steadily declined over the last 10 years. From 49.66 percent of the total population in 1970, the proportion went down to 47.88 percent in 1975, going down further to 46.87 percent in 1980. The productive age group (15-64 years) compose a little more than one-half (51.10%) of the total provincial population, 0.62 percentage point higher than the 1975 figure of 50.48 percent and 2.34 percentage points more than the rate in 1970. For the older age group (65 years and over) the increase was smaller, only 0.06 percentage point between 1970 and 1975 and 0.39 percentage point between 1975 and 1980.

As the productive age group increased by 0.62 percentage point, the dependency ratio (number of dependents for every 100 persons in the productive age group) went down from 98.12 to 95.70 decreasing by 2.42 from the 1975 level. Rural dependency ratio was much higher than the urban ratio, 97.62 for the former and 89.37 for the latter. Of the urban population, 44.92 percent belonged to the younger age group; 52.81 percent, to the productive age group and 2.27 percent, to the older age group. In the rural areas, however, the proportion of the younger population was higher at 47.44 percent. Correspondingly, the proportion of persons in the productive age group was 50.60 percent and in the older age group, 1.96 percent.

The median age of the population is 16 years; half of the total population of Davao Oriental is below 16 years old and the other half, above this age. Compared to 1975 (15 years) the median age is a year older.

Below are comparative figures showing the age composition of the population in three censal years:

TABLE B – AGE COMPOSITION OF THE POPULATION,  
DAVAO ORIENTAL: 1970, 1975 AND 1980

Age Composition	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>339,931</u>	<u>100.00</u>	<u>299,426</u>	<u>100.00</u>	<u>247,995</u>	<u>100.00</u>
0 – 14 years	159,327	46.87	143,376	47.88	123,159	49.66
15 – 64 years	173,701	51.10	151,135	50.48	120,924	48.76
65 years and over	6,903	2.03	4,915	1.64	3,912	1.58

## A BRIEF ANALYSIS

### MARITAL STATUS

Although the proportion of never married persons decreased by 3.72 percentage points since 1975, they constituted 44.51 percent of the population 10 years old and over. Nearly half (47.89%) of the urban residents were never married compared to 43.48 percent of the rural residents. On the other hand, the proportion of married persons slightly decreased from 49.31 percent in 1970 to 49.04 percent in 1975 and rose to 51.90 percent in 1980. Married persons in the rural areas (52.93%) exceeded those in the urban areas by 4.42 percentage points. Widowed persons composed 3.08 percent, 0.61 percentage points over the 1975 level while divorced or separated persons grew by 0.19 percentage point.

The proportion of never married males followed an up-and-down trend; from 50.49 percent in 1970 to 51.33 percent in 1975 and down to 47.27 percent in 1980. Never married females exhibited a similar trend – from 43.77 percent in 1970, the proportion increased to 44.86 percent in 1975 then dropped to 41.58 percent in 1980. Married males increased by 3.46 percentage points between 1975 and 1980; likewise, females increased by 2.15 percentage points during the same period. Widowed persons in both sexes showed an increase of 0.49 percentage point for males and 0.72 percentage point for females between 1975 and 1980. Divorced or separated males increased by a minimal 0.05 percentage point and the females, by 0.35 percentage point. Males and females whose marital status were not stated each made up less than one percent (0.08%) of the population aged ten and above.

**TABLE C – POPULATION 10 YEARS OLD AND OVER BY SEX  
AND MARITAL STATUS, DAVAO ORIENTAL: 1970, 1975 AND 1980**

Sex and Marital Status	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Both Sexes	<u>226,246</u>	<u>100.00</u>	<u>198,616</u>	<u>100.00</u>	<u>160,389</u>	<u>100.00</u>

## A BRIEF ANALYSIS

### HIGHEST GRADE COMPLETED

An increased proportion of persons with educational attainment is noted for the private household population 7 years old and over. Compared to 1975, persons who reached up to the secondary level increased by 3.70 percentage points (13.31% to 17.01%); those in the college level increased by 1.46 percentage points (2.59% to 4.05%) and academic degree holders, 0.60 percentage point (1.14% to 1.74%). Elementary schoolers composed the biggest group at 65.07 percent, decreasing by 1.86 percentage points from 66.93 percent in 1975. The proportion of persons without formal education, likewise, decreased by 3.25 percentage points while those whose educational attainment was not stated dropped from 0.89 percent to 0.24 percent.

### A BRIEF ANALYSIS

The proportion of males with elementary education was 3.01 percentage points higher than the females. On the other hand, females with secondary education were 1.15 percentage points higher than the males. Among the college undergraduates and academic degree holders, females dominated the males as follows: for the college level, males registered at 3.96 percent; females, 4.14 percent and for academic degree holders, males, 1.29 percent and females, 2.22 percent.

Of the 166,633 persons with elementary education, 37.87 percent completed the first to third grade and 19.17 percent, the fourth grade. Approximately 14.23 percent finished fifth grade while 28.73 percent made it through the sixth or seventh grade. Of those who reached the secondary level, 71.87 percent completed the first to third year while the remaining 28.13 percent graduated from fourth year. Less than one fifth (16.46%) of the college undergraduates completed fourth year or higher; 83.54 percent reached the lower collegiate years.

## A BRIEF ANALYSIS

The following table shows the distribution of the population 7 years old and over by highest grade completed in two censal years:

**TABLE D – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER  
BY HIGHEST GRADE COMPLETED, DAVAO ORIENTAL: 1975 AND 1980**

Highest Grade Completed	1980		1975	
	Number	Percent	Number	Percent
Total	<u>256,066</u>	<u>100.00</u>	<u>227,391</u>	<u>100.00</u>
No grade completed	30,434	11.89	34,429	15.14
Elementary	166,633	65.07	152,200	66.93
High school	43,554	17.01	30,272	13.31
College	10,363	4.05	5,895	2.59
Academic degree holder	4,465	1.74	2,583	1.14
Not stated	617	0.24	2,012	0.89

**FIG. 4 – PERCENTAGE LITERACY OF PRIVATE HOUSEHOLD POPULATION  
10 YEARS OLD AND OVER BY SEX, URBAN-RURAL, DAVAO ORIENTAL: 1980**

## A BRIEF ANALYSIS

### LITERACY

Three-fourths, or 75.73 percent of the private household population 10 years old and over are literate. The female literacy rate (76.62%) was slightly higher than that for the males (74.88%).

In the urban areas, the literacy rate was registered at 86.79 percent for the females and 86.33 percent for the males. In the rural areas, the literacy rates were much lower with 73.39 percent for the females and 71.55 percent for the males.

### LANGUAGE OR DIALECT

More than 37 dialects and languages are reportedly spoken in the province but only two – Cebuano and Davaweño – are generally spoken in majority of the private households. These are followed by Mandaya, Hiligaynon (Ilongo) and Lineyte-Samarnon (Waray). Of the 58,065 private households, 55.42 percent speak Cebuano; 30.08 percent, Davaweño; 7.29 percent, Mandaya; 1.14 percent, Hiligaynon and 1.10 percent, Lineyte-Samarnon. The remaining 4.97 percent speak one of several other dialects and languages reported for the province.

## A BRIEF ANALYSIS

### GAINFUL OCCUPATION

Out of 180,114 persons 15 years old and over, less than one-half (49.70%) are engaged in gainful occupations. The biggest major occupation group consists of agricultural, animal husbandry and forestry workers, fishermen and hunters, constituting 76.42 percent of the total gainful workers. Production and related workers, transport equipment operators and laborers account for 8.20 percent; service workers, 4.65 percent; professional, technical and related workers, 3.80 percent; sales workers, 3.56 percent and clerical and related workers, 1.66 percent.

Although the agricultural sector topped the list, the 1980 figure is lower by 2.04 percentage points compared to 1975 which was higher by 4.12 percentage points than the 1970 figure of 74.34 percent. Production workers gained only 0.01 percentage point between 1975 and 1980, after losing 2.78 percentage points from 10.97 percent in 1970. Service workers have steadily grown from 4.13 percent to 4.51 percent and 4.65 percent for the censal years 1970, 1975 and 1980, respectively. Professional, technical and related workers gained 1.21 percentage points in the five-year period. Sales workers, however, decreased by 0.42 percentage point from 1975.

Comparative figures on the proportion of workers engaged in various gainful occupations from 1970 to 1980 are shown in the succeeding table:

**TABLE E – GAINFUL WORKERS 15 YEARS OLD AND OVER BY MAJOR  
OCCUPATION GROUP, DAVAO ORIENTAL: 1970, 1975 and 1980**

Major Occupation Group	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>89,509</u>	<u>100.00</u>	<u>80,454</u>	<u>100.00</u>	<u>74,089</u>	<u>100.00</u>
Professional, technical and related workers	3,404	3.80	2,087	2.59	3,862	5.21
Administrative, executive and managerial workers	289	0.32	415	0.52	571	0.77
Clerical and related workers	1,482	1.66	1,139	1.42	1,055	1.42
Sales workers	3,186	3.56	3,202	3.98	1,946	2.63
Service workers	4,161	4.65	3,626	4.51	3,060	4.13
Agricultural, animal husbandry and forestry workers, fishermen and hunters	68,401	76.42	63,123	78.46	55,076	74.34
Production and related workers, transport equipment operators and laborers	7,341	8.20	6,592	8.19	8,130	10.97
Workers not classifiable by occupation	1,245	1.39	270	0.33	389	0.53

### INDUSTRY

Table 9 shows that agriculture, fishery and forestry dominate the industry groups with more than three-fourths (78.42%) of the total gainful workers belonging to the agricultural

## A BRIEF ANALYSIS

sector. Agricultural crop producers chiefly compose the group (86.92%) with 9.28 percent in fishery and 3.08 percent in forestry. Very few are engaged in agricultural services (0.41%); in the production of livestock, poultry and other animals (0.30%) and hunting, trapping and game propagation (0.01%). Close to one-tenth (9.35%) of the gainful workers are engaged in community, social and personal services. Three main sources of jobs in this group are personal and household services (41.83%), education services (27.74%) and public administration and defense (18.98%).

Wholesale and retail trade contribute 3.77 percent and transportation, storage and communication, 2.35 percent. Manufacturing accounts for 2.11 percent; construction, 1.41 percent; financing, insurance, real estate and business services, 0.75 percent; electricity, gas and water, 0.13 percent; mining and quarrying, 0.12 percent and activities not adequately defined, 1.59 percent.

## MIGRATION

The biggest proportion of the private household population 5 years old and over (92.48%) resided in the same municipality where they had lived on May 1, 1975. Intra-provincial migrants or those who transferred to another municipality within the province accounted for 2.68 percent while 4.69 percent were residents of another province (inter-provincial migrants). The males surpassed females in intra-provincial migration (males 1.35%; females 1.33%). Likewise, the males exceeded the females (males 2.47%; females 2.22%) in inter-provincial migration. The remaining 0.15 percent came from foreign countries.

## A BRIEF ANALYSIS

### TYPE OF BUILDING

As of May 1, 1980, majority or 94.87 percent of the 58,065 households are occupying single houses. The remaining 5.13 percent live in other types of structures distributed as follows: duplex, 1.44 percent; apartment/accesoria/condominium/row house/etc., 0.46 percent; improvised structures (barong-barong), 2.58 percent; commercial/industrial/ agricultural buildings, 0.51 percent; other housing units such as natural shelter, 0.09 percent; hotel/lodging house/dormitory/etc., 0.02 percent; and other collective living quarters, 0.03 percent (Table 1).

Single houses are occupied by more households from the rural areas (78.32%) while 21.68 percent are situated in the urban areas. Likewise, a higher proportion of rural (66.47%) than urban (33.53%) households occupy duplex and apartment/accesoria/condominium/row house types of buildings (67.80% against 32.20%). In the case of improvised structures more than four-fifths (88.64%) of the occupants are in the rural areas and only 11.36 percent, in the urban areas. As expected, majority (80.47%) of the households in commercial/ industrial/agricultural buildings are situated in the urban areas with only 19.53 percent in the rural areas. Households occupying other housing units such as natural shelter, boat, etc. are mostly found in the rural areas (90.74%) with only 9.26 percent in the urban areas while those in hotel/lodging house/dormitory are all found in rural areas. Of the households residing in other collective living quarters, 33.33 percent are in the urban and the rest, in rural areas. No household occupies institutional buildings such as hospitals, convents and school dormitories in the province. It is also interesting to note that the proportion of households living in single houses increased in a span of ten years while those in improvised structures correspondingly decreased.

The following comparative table presents a picture of the housing conditions in Davao Oriental during two censal years:

**TABLE F – NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS,  
BY TYPE OF BUILDING, DAVAO ORIENTAL: 1970 AND 1980**

Type of Building	1980		1970	
	Number	Percent	Number	Percent

## **A BRIEF ANALYSIS**

### **TYPE OF OCCUPANCY**

Of the total number of households, 49,180 or 84.70 percent are owners of their dwelling units. The rest are distributed as follows: tenants/lessees, 6.58 percent; subtenants/sublessees, 0.48 percent and rent-free occupants, 8.24 percent (Table 1).

### **CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS**

Majority of the households (70.72%) occupy dwelling units with roof of light materials (cogon/nipa, makeshift/ salvaged materials, and other such as anahaw, etc.). Those in units with roof of strong materials (galvanized iron/aluminum, tile/concrete/brick/stone and asbestos) comprise only 29.28 percent. Occupants of dwelling units with roof of strong materials constitute 44.15 percent in the urban and 25.11 percent in the rural areas. On the whole, most of the urban (55.85%) and rural (74.89%) dwellers live in units with roof of light materials.

By type of construction materials of outer walls, however, 39.30 percent of the households occupy dwelling units with walls of strong materials and 60.70 percent, of light materials. In the urban areas most of the households reside in dwelling units constructed with outer walls of strong materials (64.32%) and 35.68 percent, of light materials. In the rural areas, however, less than one-third (32.27%) of the households occupy dwelling units with outer walls of strong materials while those in units with outer walls of light materials constitute 67.73 percent (Table 2).

### **YEAR BUILT**

Table 2 shows that of the 58,065 households, more than one-half (55.91%) reside in structures built between 1976-1980; 24.86 percent, 1971-1975; 14.82 percent, 1961-1970; 3.69 percent, 1951-1960; 0.48 percent, 1942-1950 and only 0.24 percent, before World War II (1941 or earlier).

### **FLOOR AREA OF DWELLING UNIT**

Most of the households (66.28%) live in dwelling units with floor area less than 30 square meters. More than one-fourth (26.17%) occupy dwelling units with floor areas 30-49 square meters; 4.25 percent, 50-69 square meters and 1.78 percent, 70-79 square meters. Very few households live in units with the following floor areas: 100-149 square meters, 0.81 percent; 150-199 square meters, 0.35 percent; and 200-249 square meters, 0.21 percent. Only 0.06 percent live in dwelling units with floor areas of 250-299 square meters and 0.09 percent, 300 square meters and over (Table 3).

### **TENURE OF OWNER-OCCUPANT WITH RESPECT TO THE LAND**

More than half of the households that own the dwelling units they occupy also own the land (58.20%) where the structures are erected. Other types of tenure are as follows: lessee/sublessee, 11.17 percent; farm lessee/agricultural tenant of landowner, 12.26 percent; other legal tenure, 6.38 percent and no tenure, 11.99 percent (Table 4).

## **A BRIEF ANALYSIS**

### **KIND OF LIGHTING FACILITIES**

Majority (90.73%) of the total households in the province still use kerosene for lighting. Only 5.49 percent use electricity; 3.08 percent, liquefied petroleum gas (LPG); 0.15 percent, oil and 0.55 percent, other kinds of lighting facilities.

Urban households using electricity make up 15.75 percent, while their rural counterparts comprise only 2.61 percent. Kerosene is commonly used in both urban (81.31%) and rural (93.37%) areas. More households in rural areas use liquefied petroleum gas (LPG) – 3.38 percent as compared to 2.02 percent in urban areas. Oil is used by only a few households for lighting – 0.35 percent in urban areas and only 0.09 percent in rural areas.

### **SOURCE AND USE OF WATER SUPPLY**

Data gathered during the last census showed that spring water is the most common source of water supply for drinking (42.02%), for kitchen use (40.23%) and even for washing clothes (27.75%). Some residents use water from tubed/piped deep well for drinking (20.91%); 19.58 percent utilize this source for kitchen use and 16.64 percent, for washing clothes. Ranking third as a source of water supply is tubed/piped shallow well from which 13.88 percent of the households draw water for drinking; 14.31 percent, for kitchen use and 12.18 percent, for washing clothes. Others depend on the dug well as their source of water supply for drinking (11.47%), for kitchen use (12.88%) and for washing clothes (9.93%). Over one-fourth (27.11%) of the households still depend on lakes, rivers, streams and the like for washing clothes. However, only 2.72 percent utilize these sources for drinking and 5.09 percent, for kitchen use. Others make use of the faucet, community water system (7.18%, 6.88%, and 5.91 %, respectively). A minimal number of households use rain water for drinking (1.82%), for kitchen use (1.03%), or for washing clothes (0.48%).

### **COOKING FUEL**

The most common kind of cooking fuel used in the province is wood or charcoal, with 90.21 percent of the total households utilizing it. This is 5.14 percentage points lower than the wood or charcoal users in the 1970 census. Kerosene is used by 5.53 percent; liquefied petroleum gas (LPG), 1.20 percent; other kinds, 2.56 percent and electricity, 0.50 percent.

Wood or charcoal is observed to be common among urban (82.22%) and rural households (92.45%). Electricity is used by only few households in the urban (1.67%) and the rural areas (0.18%).

### **TOILET FACILITIES**

Almost one-third (31.21%) of the total households use the closed pit (antipolo, etc.) type of toilet facility. More than one-fifth (21.54%) use the open pit; 15.88 percent have the water-sealed with other depository; and 12.57 percent, water-sealed with sewer or septic tank. Other types such as the pail system, etc. are used by only 2.82 percent while a considerable proportion (15.98%) are still without toilet facilities.

Users of water-sealed with sewer/septic tank constitute 28.32 percent of the urban households and only 8.14 percent of the rural households. Meanwhile, 22.30 percent of the households in the urban and 14.08 percent in the rural areas use the water-sealed with other depository type. The closed pit is used by almost one-third (33.01%) of the rural households and one-fourth (24.81%) of the urban households. A bigger percentage (23.82%) of rural dwellers use the open pit compared to 13.42 percent of the urban residents.

## **A BRIEF ANALYSIS**

### **OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER**

More than three-fifths (63.30%) of the total households own radios compared to 43.07 percent in 1970. However, television sets and refrigerators or freezers may still be considered as luxuries in the province with only 2.19 percent and 2.86 percent, respectively, having these appliances.

Ownership of radio, as shown in Table 9, is very common among the urban as well as the rural households with 69.09 percent for the former and 61.67 percent for the latter. More urban than rural households own television sets (5.64% against 1.22%) and refrigerators or freezers (6.91% compared to 1.72%).

# HOUSING CENSUS QUESTIONS

(Encircle Code or Enter Appropriate Code If Required.)

SERIAL NO. (from PH Form 1)			
Bldg	DU	HH	
6			

H-1 to H-4 are to be asked only of the first sample household in every building (Repeat entries for other sample households in this building.)

Transcribe  
encircled codes  
here.

H-1		22
H-2		23
H-3		24
H-4		25

H-4 When was this building/house built?

1	1980
2	1979
3	1978
4	1977
5	1976
6	1971 - 1975
7	1961 - 1970
8	1951 - 1960
9	1942 - 1950
0	1941 or earlier

H-3 What construction material are the outer walls made of?

1	Galvanized Iron/Aluminum
2	Tile/Concrete/Brick/Stone
3	Wood/Plywood
4	Mixed Tile/Concrete/Brick/Stone and Wood/Plywood
5	Asbestos
6	Bamboo/Sawali
7	Cogon/Nipa
8	Makeshift/Salvaged Materials
9	Other (anahaw, etc.)

H-2 What construction material is the roof made of?

1	Galvanized Iron/Aluminum
2	Tile/Concrete/Brick/Stone
3	Asbestos
4	Cogon/Nipa
5	Makeshift/Salvaged Materials
6	Other (anahaw, etc.)

H-1 What type is this building/house?

1	Single House
2	Duplex
3	Apartment/Accesorio/Condominium/Row house/etc.
4	Improvised (barong-barong)
5	Commercial/Industrial/Agricultural
6	Other housing unit: natural shelter, boat, etc.
7	Hotel, lodging house, dormitory, etc.
8	Institutional (hospital/convent/school dormitory/penal institution)
9	Other collective living quarters (refugee camp, logging camp, military camp, etc.)

H-5 and H-6 are to be asked of the sample household in the dwelling unit. (Repeat entries for other sample households in this dwelling unit.)

H-5 How many rooms are in this dwelling unit (excluding bathroom, toilet, storeroom, passageway)?

1	Room	6	Rooms
2	Rooms	7	Rooms
3	Rooms	8	Rooms
4	Rooms	or more	
5	Rooms		

H-6 What is the floor area of this dwelling unit in square meters?

1	Less than 30 sq. meter	6	150-199 sq. meters
2	30-49 sq. meters	7	200-249 sq. meters
3	50-69 sq. meters	8	250-299 sq. meters
4	70-99 sq. meters	9	300 sq. meters & over
5	100-149 sq. meters		Specify: _____ sq. m.

H-5		26
H-6		27

H-7 to H-13 should be answered by all sample households.

H-7 How does this household occupy this dwelling unit?

1	Owner
2	Tenant/Lessee
3	Sub-tenant/sublessee
4	Rent-free

H-8 (If household owns this dwelling unit) What is your tenure with respect to the land?

1	Owner
2	Lessee or sublessee
3	Farm lessee/agricultural tenant of landowner
4	Other legal tenure
5	No tenure (squatter, etc.)
6	Not applicable

H-9 What kind of lighting do you use?

1	Electricity
2	Kerosene
3	Liquefied Petroleum Gas (LPG)
4	Oil (vegetable, animal)
5	Other

H-10 What is the main source of your water supply - (Encircle only one for each use.)

For Drinking?	For Kitchen Use?	For Washing Clothes?	Source of Water Supply
31	01	01	Faucet inside house/yard, Community Water System
02	02	02	Faucet, Public, Community Water System
03	03	03	Faucet, Other, Community Water System
04	04	04	Tubed/piped deep well, At least 5 of 20 ft. Own Use
05	05	05	Tubed/piped deep well, pipes or meters deep
06	06	06	Tubed/piped shallow well, Other
07	07	07	Tubed/piped shallow well, Own Use
08	08	08	Tubed/piped shallow well, Public
09	09	09	Tubed/piped shallow well, Other
10	10	10	Dug well, improved (covered and no seepage from side)
11	11	11	Dug well, Other
12	12	12	Spring, improved (with tube/pipes outlet)
13	13	13	Spring, Other
14	14	14	Rain
15	15	15	Lake, river, stream, irrigation, etc.

H-7		28
H-8		29
H-9		30
H-10		31-32
		33-34
		35-36
H-11		37
H-12		38
H-13		39
		40
		41

H-11 What kind of fuel do you use most of the time for cooking?

1	Electricity
2	Kerosene
3	Liquefied Petroleum Gas (LPG)
4	Wood, charcoal
5	Other

H-12 What kind of toilet facilities do you use?

1	Water-sealed, sewer/septic tank, used exclusively by household
2	Water-sealed, sewer/septic tank, shared with other households
3	Water-sealed, other depository, used exclusively by the household
4	Water-sealed, other depository, shared with other households
5	Closed pit (antipolo, etc.)
6	Open pit
7	Other (pail system, etc.)
8	None

H-13 Do you have these appliances in working condition?

YES	NO	a. Radio	b. TV	c. Refrigerator/Freezer
39	1	2	2	2

CERTIFICATION	
I HEREBY CERTIFY that the data set forth in this form were personally obtained by me in accordance with the rules and regulations promulgated by the National Census and Statistics Office.	
Name of person accomplishing this form (Printed Name & Sign) _____	Title _____ Date _____ 1980

**PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS**

**1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.**

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives of UN, ILO or USAID officials who, like diplomatic representatives, are subject reassignment to other countries after their tour of duty in the Philippines, and members of their families.

**2. HOSPITALS AND NURSES' HOMES**

- a. All patients, including those just confined, in mental hospitals, leprosaria or leper colonies, pavilions of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

**3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)**

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

**4. CORRECTIVE AND PENAL INSTITUTIONS**

- a. All prisoners in national prisons and reformatories (welfareville).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

**5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS**

- a. Monks, priests, ministers, nuns, seminarians etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

**6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA**

- a. Officers and enlisted men/draftees, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

**7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS; PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC**

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

**8. OCEAN-GOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS**

- a. Filipino crew members of ocean-going vessels (whose own families live in the Philippines) at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal vessel or deep-sea fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

**9. REFUGEE CAMPS**

- a. Filipino citizens working and living inside the camps.
